Subject: RE: Draft ERB1 biweekly

Thanks Greg for the biweekly, it looks good.

Let us discuss the cyantraniliprole PF again in your General. Also, let us reach out to PRD on what will work for them the best.

BTW, Will is out 4/25 – 4/29.

Subject: Draft ERB1 biweekly

Hi Sujatha,

Please review the following draft ERB1 biweekly.

By the way, I disagree that scuttling the cyantraniliprole PF will save resources. Rebecca and A'ja may spend less time finalizing what they've already written then redoing a streamlined PF to point to the S3NC ERA addendum. Also, finalizing what's already been written will be more transparent to the states and other entities that depend on the Reg Review docket to supply the info they need to manage pesticides. I understand your recommendation to point to the S3NC ERA. But that would be cumbersome to the Reg Review audience.

Thank you,
 Greg

Week at a Glance - Week of 4/11/22			
Week at a Glance	Milestones	Chemical Meetings / Seminars / Trainings	Out of Office
Monday, April 11, 2022		Broflanilide PFAS discussion (3:00-3:30)	Rebecca and Gary are at a SETAC conference thru 4/12 AM
